UBCOPL is published by the graduate students of the University of British Columbia. Our usual series, UBCWPL, features current research on language and linguistics by students and faculty of the department, and we are the regular publishers of two conference proceedings: the Workshop on Structure and Constituency in Languages of the Americas (WSCLA) and the International Conference on Salish and Neighbouring Languages (ICSNL).

## **PREFACE**

The University of British Columbia Working Papers in Linguistics (UBCWPL) is pleased to present the inaugural volume of the University of British Columbia Occasional Papers in Linguistics (UBCOPL): the Proceedings of the 21<sup>st</sup> Northwest Linguistics Conference (NWLC 21) which was held at the University of British Columbia, April 9 - 10, 2005, in Vancouver, British Columbia, Canada.

This volume marks the first time we are publishing in CD-ROM format. We are trying out this new format of publishing partly in keeping with the times, and partly in an attempt to keep costs and prices low. The hope is that the latter will translate into greater circulation of the material.

This series has been given a different name from our usual series because of the different publishing format. We look forward to publishing more Occasional Papers in future. If you have any suggestions for improvement, please let us know.

We hope you enjoy the CD-ROM.
